

A national conversation on AI, starting with you!

Help draw the first public map of Switzerland's expectations for AI.

Take part!

"I hope that...Switzerland becomes a global leader in responsible, transparent, and ethical AI."

"Ich hoffe, dass eine Schweizer KI Fragen zum Schweizer Kontext präzise beantworten kann."

"J'espère que l'IA va disparaître et que le progrès va se détourner d'une prétendue "productivité" qui brûle nos ressources encore plus rapidement."

"Spero che...i valori storici federali di privacy e di condivisione federata siano alla base di questo progetto e possano illuminare un nuovo modo di fare economia distribuita e condivisa."

"Ina IA svizra duai dumagnar nossa plurilinguitad a moda nativa e senza sbagls."

Your answers will be shared anonymously to the team behind Apertus – Switzerland's first fully open AI model – and will be incorporated into a public report to be presented at the Geneva AI Summit.
